VELMANI M

Madurai, India | Email: velmani215@gmail.com| Phone: +91-9600487102|

Professional Summary

I'm an MCA graduate with a real passion for building user-friendly, responsive websites. During my internship, I worked on full-stack Python projects where I got hands-on experience developing both the frontend and backend of web applications. I also enjoy web design and have a strong eye for UI/UX — I love creating clean, intuitive interfaces that make a difference to users. I'm excited to keep learning and contribute to a team where I can grow as a full-stack developer and help build meaningful digital experiences.

Key Highlights

- **Frontend Development**: Proficient in HTML, CSS, JavaScript, and React.js for building responsive, interactive user interfaces.
- UI/UX Design: Skilled in creating user-friendly designs using Figma; focus on clean layouts and intuitive experiences.
- **Internship Experience**: Worked as a Frontend Developer Intern at **Vocoder**, contributing to real-world web projects in a team environment.
- **Responsive Web Design**: Built and optimized websites for mobile and desktop with modern CSS frameworks.
- **Continuous Learner**: Eager to explore backend development (Python), improve full-stack skills, and grow in the tech industry.

Technical Skills

Languages	JavaScript, Python, Java, SQL
Frontend	React.js, HTML, CSS, Bootstrap, CSS
Backend / Tools	Node.js, MongoDB.

Internship Experience

Full Stack Developer Python Intern

Vcodez Company | March 2025 - Present

- Developed web features using **React.js** for the frontend.
- Integrated **MongoDB** for backend data storage and handling.
- Worked with **Git and GitHub** for version control and team collaboration.
- Participated in UI/UX discussions to improve user experience and responsiveness.

Web Development

Teachnook | Nov 2024- Feb 2025

- Built dynamic web pages using **React.js** and handled backend logic using **Python**.
- Designed and developed a **portfolio website** with a focus on clean UI/UX design.
- Worked with modern design tools like **Figma** to translate mockups into responsive code.
- Gained experience in full-stack development by contributing to both client-side and server-side components.

Projects

Indian Tradition Website | Frontend Developer

- Built a fully responsive website using HTML, CSS, JavaScript, and Bootstrap to showcase Indian culture, traditions, and festivals.
- Designed interactive elements and smooth navigation to enhance user experience.
- Focused on clean layout, color harmony, and mobile-first design to ensure accessibility across all devices.

Personal Portfolio Website

- Designed a **responsive personal portfolio** using **HTML**, **CSS**, **React.js**, and showcasing projects.
- Created an initial design prototype in **Figma** before development and deployed online.

Land Price Prediction System | Python & Machine Learning

- Built a mini-project that predicts land prices based on user input using machine learning algorithms.
- Implemented a **user login system** and integrated a simple UI for entering property details and displaying predictions.
- Focused on backend logic with **Python**, using libraries such as **scikit-learn** and **pandas**.

Education

Master of Computer Applications (MCA) Presidency University | 2023 – 2025 CGPA: 7.24 / 10

Bachelor of Commerce (Computer Applications) (B.com(CA)) Yadava College, Madurai | 2020 – 2023 Percentage: 68%

Certifications

- Full Stack Python Developer (Vcodez)
- Web Development (Teachnook)

Languages

English, Tamil
